

Call for Papers: Joint Conference on Applicability of Radiation-Response Models to Low Dose Protection Standards

The Health Physics Society and the American Nuclear Society will cosponsor the joint scientific conference “Applicability of Radiation-Response Models to Low Dose Protection Standards,” 23–26 September 2018, in Pasco, Washington. The conference will address:

AMERICAN NUCLEAR SOCIETY & HEALTH PHYSICS SOCIETY
JOINT TOPICAL · SEPTEMBER 23 – 26, 2018
TRI-CITIES, WASHINGTON

- Scientific foundations for radiation protection standards and emergency action guidelines.
- Molecular basis of radiation response at low dose.
- Applicability of linear no-threshold dose-response models.
- Public perceptions of radiation risk.
- Implementation of radiation protection regulations.
- Opportunities for beneficial changes to radiation protection regulations.

The Technical Program Committee is now preparing the technical program and requests expression of interest from persons who would like to speak at the conference. All conference speakers must submit a title and abstract for review to the [conference website](#). The website provides complete instructions for preparing and submitting abstracts in a standard format.

Anticipating strong interest in this conference, we recommend that authors submit abstracts by **1 May 2017**. For additional information, please contact [Alan Waltar](#), conference chairman, or [Darrell Fisher](#), Technical Program Committee cochairman.

Upcoming Training Courses:

Air Sampling for Radioactive Materials • April 10–April 14, 2017
Environmental Monitoring • April 17–April 21, 2017
Gamma Spectroscopy • June 5–June 9, 2017
MARSSIM • June 12–June 16, 2017
Occupational Internal Dosimetry • July 24–July 28, 2017
